

BOZAL Graphic Machinery – your reliable partner

Purchase and sale of printing and paper-processing machines

BOZAL
Graphische Maschinen

BOZAL
Graphische Maschinen

The right machine for every need

Graphic machinery made in Germany and Japan rank among the best in the world. We have been trading internationally for many years with second-hand graphical machines from the German-speaking area. Whether small or large, single or multi-color, small printing business or major printer – we buy machines direct and deliver them worldwide – from individual machines to complete printing systems.

Top quality and service

You can rely on BOZAL: All the machines we have on offer have been carefully selected and serviced by experts. We exclusively sell machines from well-known manufacturers such as HEIDELBERG, KOMORI, RYOBI, manroland, KBA, BOBST and POLAR. If required, we will service the machine, replace wearing parts or provide a technical assessment. We pay as much attention to providing professional packaging, shipping and delivery, even worldwide, as we do to offering fair and honest payment processes.

Experienced, secure and reliable

We have been active in the field of graphic machines for over 25 years. Our offices are in the St. Leon-Rot business park near Heidelberg, one of the centers of the European printing machine industry. In our crane runway halls, we always have machines of every type and size in stock. Thanks to our outstanding range of contacts in the field and our well-established network of partners, we can also supply large orders and special requirements. We will deliver your goods securely to any country on the planet.

Why BOZAL?

You can rely on BOZAL, as we offer more than others:

- Over 25 years experience in the field of graphic machines
- Direct purchasing and sale without middlemen
- Personal support by qualified professionals
- 5000 m² of the latest infrastructure
- Numerous machines always in stock
- International network of contacts and reliable partners
- Global collection and delivery
- Execution of formalities and customs documents
- Secure financing, thanks to the well-established company and secured credit terms
- Additional services such as documentation, dismantling and installation

We are also glad to help with special requests and large projects. Just give us a call and ask – we will be pleased to help.

« We look forward to adding you to our customers. »

Erdal Bozal, Dipl.-Ing. (FH) und Ercan Bozal, General Manager
